## About the Program

The PGDM in Material Management prepares professionals to manage materials, resources, and operations across manufacturing, supply chain, logistics, and procurement functions. With the rapid growth of global manufacturing and retail, the demand for skilled material management experts continues to rise.

The program builds capabilities in planning, forecasting, vendor management, ERP systems, and quality frameworks, enabling you to streamline operations, reduce costs, and manage end-to-end material workflows with strategic precision.

## Career Opportunities

*A PGDM in Material Management prepares you for roles such as:*

- *Material Manager*
- *Procurement Manager*
- *Strategic Sourcing Manager*
- *Logistics Manager*
- *Supply Planning Executive*
- *Warehousing Manager*
- *Commodity Manager*
- *Inventory Manager*
- *Operations Executive – Materials*
- *Supply Chain Manager*
- *Procurement Analyst*
- *Inventory Control Specialist*
