ABOUT UPES ONLINE

UPES Online, the digital learning vertical of UPES, is aimed at empowering professionals looking to advance in their careers, students aspiring to upskill, and individuals striving to achieve personal goals. It offers a range of flexible, industry-relevant programs designed to equip learners with the skills needed to thrive in today's dynamic job market. UPES Online offers MBA, MCA, BBA, and BCA degrees, all enhanced with industry masterclasses and immersive experiences, maintaining the same level of academic rigour as traditional in-person programs. Additionally, the platform provides intensive 10-month Postgraduate Certification Programs (PGCP) in fields such as Oil and Gas, Renewable Energy, and Industrial Safety, with the integration of advanced technologies like AI, Data Science, and Cloud Computing into the curriculum.

UPES Online is an extension of UPES, a UGC-entitled, multidisciplinary, not-for-profit, research-driven university, committed to academic excellence, exemplary student outcomes, and social impact. As the 'University of Tomorrow', it pioneers transformative education, shaping learners into changemakers. With seven schools, including Computer Science, Engineering, Health Sciences and Technology, Design, Business, Law, Liberal Studies and Media, UPES provides industry-ready education to over 16,000+ students at its campuses in Dehradun.

As per the National Institutional Ranking Framework (NIRF) 2024, UPES has been ranked 45, with a rank of 43 in engineering and a rank of 36 in management. In addition to this, the university has been ranked the No.1 private university in academic reputation in India by the QS World University Rankings 2025 and is among the top 2% of universities in the world. UPES has also been accredited by NAAC with a grade 'A' and has received 5 stars on Employability (placements), by globally acclaimed QS Ratings. The university has had 100% placements over the last five years. Forty-six (46) faculty members of UPES are among the world's top 2% researchers as per the Stanford University list.

ABOUT THE PROGRAM

This program combines a thorough training in core business administration skills with an indepth education in the understanding of strategic business issues across the entire hydrocarbon value chain, from exploration to the retailing of petroleum and petroleum products.

It extensively covers areas like pricing, exploration, and production, import of crude oil and LNG, acquisition of oil equity, refining and export of petro products, regulations, distribution of oil and gas, and petroleum research. The program is focused on creating strong concepts while inculcating hands-on practical learning experiences.

With Oil and Gas Industry surging ahead in India, domain specialists with management degrees will have a professional edge over others and will be in high demand in the industry.

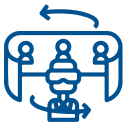

KEY HIGHLIGHTS OF THE PROGRAM

Interactive Live Sessions
Learn directly from industry experts and global faculty through engaging live sessions.

Dedicated Academic Advisor
Receive personalised guidance and support for your academic and career journey.

Facilitated Group Interactions
Participate in supervised discussion forums to collaborate and interact with peers.

Robust Learning Management System
Learn from updated study materials, online library, and a user-friendly learning platform.

Real-World Application
Acquire practical skills through engaging projects and case studies for real-life impact.
